How to find us

Coming from Sauteurs:

Follow the road towards Petite Anse Hotel (they have a sign up in Sauteurs), the road is more or less along the beach in the west of Sauteurs. Follow the road all the way along the beach, then the road turns away from the beach and goes up a little bit. Shortly after the beach you will see our sign on the right side of the road. This is the first road (the road is not in the best conditions) on your left going up the hill. Take this road up the hill for about 200 yards and you will see the next sign pointing up our drive on the right.

If you should have problems finding us you can always give us a call and we come and guide you up from the beach.

Coming up the west coast:

There's a short cut after Duquesne (marked as "Industry" on the map below) turning left by the Chappel bridge away from the main road, leading over the hills (also pointed out by a Petite Anse Hotel sign). If you decide to take the short cut, then please watch out for a nasty hole on the left edge of the second small bridge shortly after you have left the main road!

If you should have problems finding us, you can always give us a call and we come and guide you up from the beach.
